

ATI Wah Chang Laboratory and Technical Services: Analytical Laboratory

Attribute	Instrument or Type of Analysis	Matrix	Price/ sample	Comments
Carbon	Combustion-IR	Metal	\$30	LECO Instruments
Carbon, High	Combustion-IR	Metal	\$40	LECO Instruments
Hydrogen	Inert Gas Fusion	Metal	\$40	LECO Instruments
Nitrogen	Kjeldahl Distillation	Metal	\$45	
Oxygen or Nitrogen	Inert Gas Fusion	Metal	\$45	LECO Instruments
Oxygen & Nitrogen	Inert Gas Fusion	Metal	\$60	LECO Instruments
Sulfur	Combustion-IR	Metal	\$30	LECO Instruments
Carbon & Sulfur	Combustion-IR	Metal	\$45	LECO Instruments
Metals	Atomic Absorption (AA)	Various materials	\$40	Each sample, per element
Metals	Graphite Furnace (GF-AA)	Various materials	\$70	Each sample, per element
Hg (Mercury)	Cold Vapor AA (CVAA)	Various materials	\$90	Each sample
Metals	DCP- or ICP-OES	Various materials	\$40 \$10	Each sample, first element Each additional element, per sample
Metals	ICP-MS	Various materials	\$70 \$10	Each sample, first element Each additional element, per sample

- Sample preparation charges may apply and are on a quote basis when necessary.
- Routine service for many analyses is four to six business days.
- Expedited services are available for some analyses.
- Time commences with sample arrival in the laboratory.
- Please contact us for custom and package testing proposals.
- Customer confidentiality will be maintained.
- Visa, MasterCard, and American Express credit cards accepted.
- Payment terms are net 30 days. Prices are subject to change without notice and are in USD.
- Minimum order is \$50.
- Services provided are subject to ATI Wah Chang Laboratory and Testing Services terms and conditions.
